Everyone,

For the Gold King Mine response, pursuant to direction from headquarters, all three regions (regions 6, 8, and 9) are sharing a single SSID: A8K9RV00.

PRC 303BC6 is to be used for overtime charging only, related to this response.

Thanks,

Kathy

Hi All,

This is what happened when I tried to enter the SSID in SEMS. The SSID designation belongs to Region 8 (hence the "A8" in the beginning). Generally, we cannot share SSIDs in SEMS, so even within the Region, we cannot have one SSID for two different sites.

Thanks,

Kevin
